ABOUT US

01

MLI, founded in 2010 in Montreal, has been dedicated to providing high-quality language education through small class sizes and personalized learning programs. As a proud member of Languages Canada, we have helped numerous students achieve their B2 or higher level in French, enabling them to reach their immigration goals.

Recognized as a Designated Learning Institution (DLI), we also assist students in obtaining and maintaining study permits throughout their studies. With a commitment to innovation and excellence, we continue to create a supportive and effective language learning environment.

MISSION

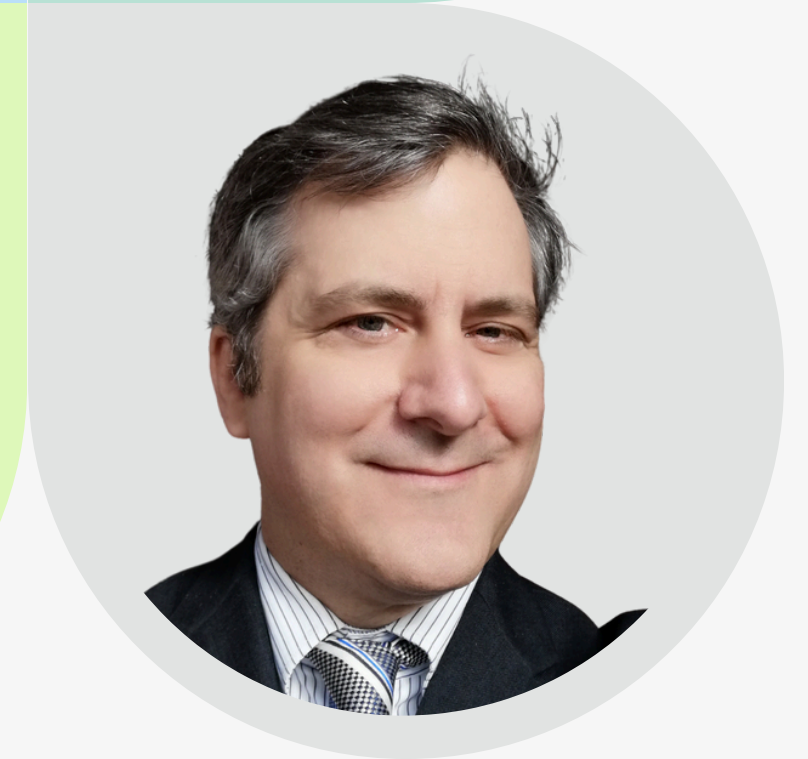

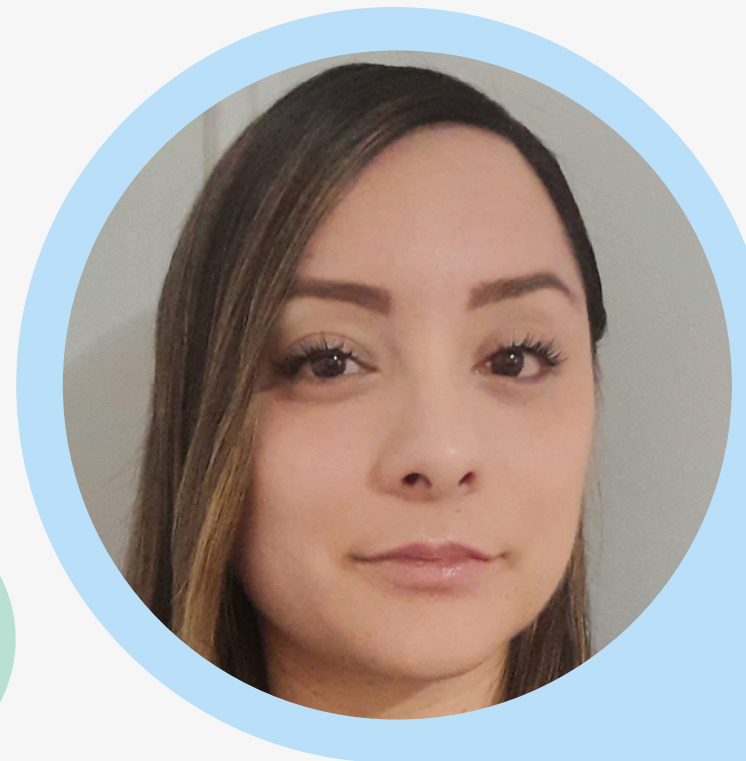

Our mission is to improve ourselves, help others, and increase social value, while continually progressing to create a better language education environment. As a language institution, we are dedicated to providing high-quality language training that meets the diverse needs of our students. We strive to foster an inclusive and supportive learning environment, where students can develop their language skills and achieve their personal and professional goals. Through innovation in teaching methods and a focus on personalized learning, we aim to be a leading provider of language education, empowering students to succeed in a globalized world.

OUR TEACHERS

Professional Teachers

Our faculty comprises a diverse group of professionals, each bringing an extensive background in language education and a profound understanding of the complexities of language exams, including French exams such as TEF, TEFAQ, TCF, and TCFQ, as well as English exams like TOEFL, IELTS, and CEPIP. Our English teachers hold TESOL certification and are committed to providing high-quality language instruction. Their passion for teaching is driven by a dedication to helping students achieve their linguistic goals in an engaging and supportive environment.

We plan to introduce Spanish language courses in the new year, expanding our language offerings and providing students with more opportunities for learning.

ONLINE LEARNING SCHOOL

Our online classes are led by a team of experienced teachers, experts in language proficiency exams in both French and English. Through a blend of live sessions, interactive coursework, and personalized feedback, our programs ensure that each student receives the attention and resources they need to succeed.

Additionally, our online courses help students save on transportation costs, offering a convenient learning experience while maintaining effective interaction, ensuring students achieve the best results in a comfortable environment.

LANGUAGE PROFICIENCY LEVELS

At MLI, we categorize **English and French language proficiency into four main levels**, aligning with the **Common European Framework of Reference for Languages (CEFR)**. These levels are designed to help you easily identify your current language skills and choose the appropriate course to enhance your proficiency.

1. Beginner (A1)

This level is for those just starting out. You will learn basic phrases and expressions used in everyday situations.

2. Elementary (A2)

Build on your foundational skills by **understanding and using simple sentences to discuss routine tasks and needs.**

3. Intermediate (B1)

At this level, you'll gain the **ability to handle travel, work, and school situations with some fluency**, expressing opinions and discussing past and future events.

4. Upper Intermediate (B2)

This level is designed for those who want to **achieve a higher fluency and understanding complex texts**. You'll learn to discuss a wide range of topics with spontaneity and fluency.

5. Advanced (C1)

At this level, you will be able to **understand long and complex texts and express yourself fluently** and spontaneously in social, academic, and professional situations. You will learn to argue and defend your opinions in a nuanced manner.

6. Proficient (C2)

This level is designed for learners who can **understand virtually everything they read or hear with ease**. You will be able to summarize information from different sources, rephrase arguments, and express yourself precisely and fluently in complex contexts.
